

SPLIT RINGS

approx. actual size

Standard Gauge Split Rings Nickel Plated Spring Steel

The best all around Split Rings. Spring steel makes these easy to use and they retain their flatness very well.

Outside					
Stock No.	Size	Dia.	100	500	1000

410057	3	.254	4.59	18.37	34.65

Split Rings - Stainless Steel

Stainless Steel Split Rings must be used carefully, particularly in smaller sizes, as they do not have the "spring" of nickel steel rings. If they are spread open too far they will not close completely.

Outside					
Stock No.	Size	Dia.	100	500	1000
410020	2	.220	5.03	20.12	37.95

MUSTAD PREMIUM IMPORTED ROLLER SWIVELS

Ball Bearing Swivels are very expensive and some have a tendency to jam and quit working. For years we have used crane swivels on our Spinner Baits and they work fine. Now we have found a higher quality Roller Swivel that works great on Spinner Baits. We think better than most Ball Bearing Swivels and they are much less expensive. Try these Roller Swivels and see if you don't agree. Black Nickel finish.
