

LURE BUILDING TOOLS

About Tools

Tools are available in a wide range of quality and prices. The highest quality tools are USA made and German made tools. Economy tools mostly come from Pakistan and China. In our catalog we will designate "USA Made", "German Made" and "Import" with Import tools coming from Pakistan or China. Obviously "USA" and "German" are the best, but for many applications the "Import" tools are very adequate.

SPLIT RING PLIERS

A must for building lures that use split rings and for changing hooks on lures. The Split Ring Pliers we offer differ in how they will open a split ring. If you open a split ring too wide it may retain some of the opening and not return to its original thickness. Our pliers will open the ring from .030" to .075" depending on model. Select that is best for your application.

PREMIUM SPLIT RING PLIERS – AMERICAN MADE

Overall length: 5-1/4". Coated handles. Strong jaws. Will open split rings approx. .075". We recommend these pliers be used with size 3 or larger split rings.

Stock No. 410501 \$16.95

SPLIT RING PLIERS – Medium Opening

Overall length: 5". Coated handles. Will open split rings approx. .050". We recommend these pliers be used with split rings size 2 or larger. Imported

Stock No. 410516 \$9.95

SPLIT RING PLIERS – Narrow Opening

Overall length: 5-1.4". Coated handles. Will open split rings approx. .030". We recommend these pliers be used with split rings size 4 or smaller. Imported

Stock No. 410515 \$9.95

ECONOMY SPLIT RING PLIERS

Stamped, plated handles/jaws. Handles are not coated. Will open split rings approx. .050". We recommend you use these pliers with size 3 or larger split rings. USA made

Stock No. 410503 \$3.39

ROUND NOSE PLIERS

Round nose pliers are useful for bending loops and radius bends in wire for all types of fishing lures. Round nose pliers come in double jaw, single jaw nesting, and step jaw. Double jaw have always been the most popular because they were readily available. The single jaw nesting pliers are easier to use for many types of bends because of the concave or nesting lower jaw which helps to hold the wire during the bending. Step jaw pliers feature three different diameter steps which are very useful for many types of bends. We have given you the jaw taper dimensions which is the diameter of the jaw at the large end and the small end. Round nose pliers are best used for wire diameters up to .040.

GERMAN ROUND NOSE PLIERS

Overall length: 4-3/4". Jaw length 3/4". Jaw taper: .20"-.05". Coated handles. German quality pliers

Stock No. 410509 \$27.95

LONG HANDLE ROUND NOSE PLIERS

Overall length: 6-1/4". Extra long coated handles make these round nose pliers easy to use. Jaw taper: .23"-.06". Jaw length 3/4". Imported

Stock No. 410513 \$9.95

GERMAN ROUND NOSE NESTING PLIERS

One jaw is round and tapered and the other jaw is concave for nesting the round jaw. The nesting jaws make many wire bends easier to do as they help hold the wire in place when bending. Overall length: 5". Jaw length 3/4". Round jaw taper: .20"-.05". Coated handles. German quality

Stock No. 410511 \$29.95

ROUND NOSE NESTING PLIERS

One jaw is round and tapered and the other jaw is concave for nesting the round jaw. The nesting jaws make many wire bends easier to do as they help hold the wire in place when bending. Overall length: 5". Jaw length 3/4". Round jaw taper: .21"-.05". Coated handles. Imported

Stock No. 410517 \$12.95

STEP JAW ROUND NOSE PLIERS

Step round jaw has 3 step diameters for forming loops and round bends in wire. Bottom jaw is flat. Overall length: 5-3/4". Jaw length 1". Step diameters: .22", .16", and .10". Coated handles. Imported

Stock No. 410518 \$12.95

GATE CUTTERS

Gate Cutter pliers are used to trim the pouring gate on lead molded items. They are specially made to trim close, in many applications eliminating the need to further trim the lure before painting. Gate Cutters have soft cutting edges. Do not use Gate Cutters to cut wire. They are used only to cut soft lead.

GATE CUTTERS

Overall length: 5". Coated handles. Very close trim for lead moldings. Do not use for cutting with wire. Imported

Stock No. 410507 \$7.95

PALM GATE CUTTERS

Handy, easy to use smaller Gate Cutters for lead moldings. Overall length: 4-1/4". Coated handles. Fit right into the palm of your hand. Do not use for cutting wire. Imported

Stock No. 410508 \$16.95

LEADMASER TOOLS HIGH QUALITY CARBON STEEL TOOLS FOR THE FISHERMAN

LEADMASER PRO GUIDE TOOL

Features: Split Ring Plier, Lead Wire Cutter, Lead Flattener, Lead Hole Punch, Coated Handles, Side Cutter, Serrated Jaws. Use on size "2" or larger split rings.

6" PRO GUIDE TOOL
Stock No. 410524 \$17.43

8" PRO GUIDE TOOL
Stock No. 410525 \$19.86

LEADMASER SUPER PRO GUIDE TOOL

Features: Split Ring Plier, Lead Wire Cutter, Lead Flattener, Lead Hole Punch, Coated Handles, Side Cutter, Serrated Jaws, lower jaw is round nose for making wire loops, round nose taper .15" to .09". Use on size "0" or larger split rings.

6" SUPER PRO
Stock No. 410523 \$19.98

LEADMASER LURE MAKER TOOL

Features: Split Ring Plier, Side Cutter, Serrated Jaws, Spring Handles, lower jaw is round nose for making wire loops, round nose taper .14" to .085". Use on size "0" or larger split rings.

4" LURE MAKER TOOL
Stock No. 410527 \$18.72

LEADMASER ORIGINAL DRIFTMASTER TOOL

Features: Lead Wire Cutter, Lead Flattener, Lead Hole Punch, Coated Handles, Side Cutter, Serrated Jaws

6" DRIFTMASTER TOOL
Stock No. 410526 \$11.46

FLAT NOSE PLIERS

Overall length: 5". Good for making 90° bends in wire.

Stock No. 410520 \$7.95
