

# LEAD MOLDING ACCESSORIES

## ECONOMY PRODUCTION POT

Large, deep pot holds approximately 10 pounds of lead. Melt time is less than 20 minutes. Pour spout up front where it belongs so you can see what you're doing. Infinite heat control. Uses only 500 watts of power during heat-up and a lot less to maintain temperature. Large, stable base for safety. Well suited for commercial casting, clubs, police departments, etc. This pot has features not found on more expensive melters. Guaranteed 2 years. Available in 110V (For U.S. use) and 220V (for international use. Bottom pour pots are not recommended for pouring lead items that weigh more than 3 oz. The lead solidifies quickly and the item will have crease layers. Bottom pour pots are not recommended for molds that have wires protruding from the mold, such as Spinner Bait Molds. Pot inside dimensions 2-3/4" wide x 3-3/4" deep.

**Economy Production Pot**  
**Stock No. 453015-110V.....\$56.95**  
**Stock No. 453042-220V.....\$69.95**

## SMALL STEEL POT

The pot will hold up to 5 lbs. of lead and can be used on a variety of heat sources. It has pre-drilled holes to attach a handle if desired.

**Pot . . . Stock No. 471888.....\$5.50**

## CASTING IRON MELTING POT

Available in 2 sizes. 20 Lb. Pot is 5" in diameter, 50 Lb. Pot is 8" in diameter.

**20 Lb. Capacity Pot . . . Stock No. 453018...\$21.95**  
**50 Lb. Capacity Pot . . . Stock No. 471187...\$46.95**

## LEAD INGOT MOLD

Cast Aluminum. Mold forms 2-1 lb. & 2-1/2 lb. ingots. Useful for melting down scrap lead or emptying melting furnace. Ingots are easy to stock & store.

**Stock No. 453017.....\$13.47**

*We recommend that you do not use tire weights in the bottom pouring lead pots. Tire weights are full of impurities and will usually clog the bottom dispensing spout.*

## 20 LB. PRODUCTION LEAD MELT POT

Large diameter 20 lb. capacity lead melting pot. Bottom dispensing. Adjustable flow control. Variable temperature control. 4" clearance under pot.

Available in two models: 110 volt model for U.S. use and a 220 volt model for international use.

Bottom pour pots are not recommended for pouring lead items that weigh more than 3 oz. The lead solidifies quickly and the item will have crease layers. Bottom pour pots are not recommended for molds that have wires protruding from the mold, such as Spinner Bait Molds. Pot inside dimensions: 4" wide x 3-7/8" deep.

**Stock No. 453039 - 110V.....\$79.88**  
**Stock No. 453044 - 220V.....\$94.95**

## HOT POT-2

120 Volts AC, 500 Watts,

This is an improved version of the traditional "electric ladle." The heating element is now mounted externally to greatly extend element life. The HOT POT-2 both melts and pours lead. It is a convenient and inexpensive beginners unit since there is nothing else to buy. Features: 3" x 1-3/4", 4 lb. lead capacity cast iron pot, heat resistant plastic handle, metal stand, and three foot cord.

**Hot Pot-2**  
**Stock No. 453025.....\$38.95**  
**Hot POT-2 Replacement Element**  
**Stock No. 453026.....\$17.95**

## LADLES

Small ladle for casting jigs. Wooden Handle. Right or left hand spout.

**Small Ladle . . . Stock No. 453022.....\$4.63**

Medium sized ladle, perfect for filling smaller cavities. Holds approximately 5 oz. of lead with right and left pouring lips.

**Medium Ladle . . . Stock No. 471884 .....\$4.95**

Available in 2 sizes. Regular ladle is 3" in diameter and holds 1 lb. of lead. The large ladle is 5" in diameter and holds approx. 8 lb. of lead. Regular ladle can be used with pot 453040, 453018, and 471187. Large ladle is used only with pot # 4471187.

**Large Ladle . . . Stock No. 471905.....\$14.95**  
**X-Large Ladle . . . Stock No. 471886.....\$29.95**

## PRECISION MELTING POT

Electric melting pot for lead. Holds approximately 4 lbs. of lead. Variable temperature control.

**Lee Precision Lead Melter**

**Stock No. 453016.....\$34.77**

## MAGNUM MELTER

Large 4" diameter pot allows easy access for the ladle caster. Same high efficiency design that has made Lee pots the most popular. Melt time is less than 20 minutes with just 700 watts. 20-lb. capacity for the longest casting session. 110 volt

**Stock No. 453040.....\$55.95**

## CLEAN CAST LEAD FLUXING COMPOUND

Lead fluxing compound. When added to melted lead will aid in removal of sand, dirt, sludge, oxidation and other impurities in the lead and will result in better castings. Instructions for use on Flux Compound container. 1 lb. container.

**Stock No. 472269.....\$10.80/container**

## CASTING RELEASE SPRAY

Release spray will apply a micron-sized graphite coating to the surface of your mold. Even though Do-it-Molds do not require a release agent, this product will help the release of the castings in older or modified molds. 6 oz. spray can.

**Stock No. 472270.....\$9.40**
